Letter to Secret Service Team

I first would like to say Thank You to Everyone That Has Been Involved with me During This Lifetime, It Has been Nice These Past Few Years Watching and Waiting, The Best Time I had was March of 2023, It Showed That We Didn't Forget about Me and How Important this Nation Is to Me and to The People Of the World. It is time to move with the Master Plan. If We Don't Act We Stand to Lose Everything I stand to lose the Most, I really have Nothing To Gain, But I lose it all, The Most Important things to Me Is My Family, Remember the

Way I work is God First America Second The People of this Nation Third and Last My Family, I have done the work but have gained no benefits, But Today With a Heavy Heart I ask That We Do the Work of this Nation and to Retrieve My Family and Properties because I can not go alone and I can not walk alone anymore. I can not be a Shadow Anymore and I hope this Doesn't fall upon Deaf Ears, We all have had time to think but have I changed these last few years, I came up here on good will so everyone would have a chance to get to know me and know it is the common good of the people that I do what I need to do, Everything is Falling Apart and Needs Some Infusion of Money I have that and Can Get Everything Back into Shape. Democracy is Very Fragile as we all know this and that is why I have fought so hard to preserve and protect it. With My Name Comes With Challenges and Also Sadness and Yet Nobody has asked me to Stop or To Try to Stop Me but yet I don't tell many people who I am Out of Fear that someone will Cause Harm to Me. I also Without My Wife Cannot Continue. I belong to Her and She Belongs to Me and We As A team Belong to the People of this Great Nation. We Are a team for the Ages. So I am Asking Everyone to Just be honest with Me I won't Get Upset there are reasons I haven't transferred My Property Deeds Back Yet. I remember

When I first went to the Estate in this Lifetime they said I would never Have the Property again and My Heart was hurt but I said watch and see, With Me Everyone has always been bent on Greed around me and I feel alone so often. I don't wanna feel alone anymore I need My Life Back in a Whole and the Only Way to do that is to Emerge. I need America and America Needs Me. But From the Bottom of My Heart I thank Everyone within the Agency That has Treated Me with Dignity and Respect I have Met Resistance But Not Much Anymore, I thank you all and My You Continue to Serwe Our Great Nation Well
